

THE MADRONA FREESTANDING SERIES

The Madrona Series provides a choice between contemporary and traditional design styles without sacrificing the most important Valor ingredient – efficient, radiant warmth. A hybrid in design and performance, the Madrona provides a reliable heating source, adaptable to any living space.

Traditional Madrona - Available in an arched and square front design, the Traditional Madrona projects warmth and ambience. Beautifully detailed in cast iron and available in black and majolica brown, the Traditional Madrona is timeless in design.

Contemporary Madrona – Subtle concrete finishes balance the bold presence of handcrafted cast iron craftsmanship. Inspired by Scandinavian design, the Contemporary Madrona makes a grand statement in any environment.

RADIANT & CONVECTED HEAT

The Madrona supplies a constant flow of both radiant heat and naturally convected warm air. Continuously warming objects in its path (including the human body), radiant heat satisfies your comfort needs with up to 25% less overall energy compared to forced air systems. Turn down your furnace and save with Valor.

NO POWER, NO PROBLEM

Engineered to circulate air through natural convection, the Madrona is highly efficient without a fan - providing reliable heat, even during a power failure.

VALORSTAT PLUS REMOTE CONTROL (Standard with Purchase)

Easily select, adjust and program the desired temperature that you want, saving energy and lowering your overall home heating costs.

Pilot On Demand: Turn your pilot light ON and OFF from the handheld remote for years of additional energy savings.

Energy Saving Feature: The Valor SmartPilot System automatically shuts down if there is no activity after 5 days, reducing unnecessary pilot gas consumption.

USE RADIANT HEAT SAFELY

Fireplace surfaces, in particular the glass viewing window, are extremely hot during operation and will remain hot for a period of time after the fireplace is turned off. Contact with the hot glass can cause severe burns. Close adult supervision is required if there are young children, or at-risk individuals in the house. As well, a physical barrier is strongly recommended. Install an approved aftermarket safety gate to keep toddlers, young children and at-risk individuals a safe distance from the fireplace.

MADRONA SERIES FIREPLACE COMPONENTS

ENGINES	Model	Description
	MF28JLN	Madrona freestanding direct vent stove engine NG
	MF28JLP	Madrona freestanding direct vent stove engine LPG
BODY	MFCS01-1	Traditional Madrona Casting - Black (Box 1 of 2)
	MFCS01-2	Traditional Madrona Arched Casting Front - Black (Box 2 of 2)
	MFCS01-3	Traditional Madrona Square Casting Front - Black (Box 2 of 2)
	MFCS02-1	Traditional Madrona Casting - Majolica Brown Enamel (Box 1 of 2)
	MFCS02-2	Traditional Madrona Arched Casting Front - Majolica Brown Enamel (Box 2 of 2)
	MFCS02-3	Traditional Madrona Square Casting Front - Majolica Brown Enamel (Box 2 of 2)
ACCESSORIES	MFCS04-1	Contemporary Madrona Casting (Box 1 of 2)
	MFCS04-2	Contemporary Madrona Casting (Box 2 of 2)
	555CFK	Circulating Fan Kit - variable speed, thermally activated
	556CLA	Co-linear Adapter Kit (converts co-axial outlet to 2x3" collars for rear vent only)
	559CLT	Co-linear Termination for use with 556CLA (in existing chimney applications)
	559SFK	Square Flashing Kit for 559CLT
845TG	Terminal Guard - for sidewall vent terminals (required item in certain applications - see install manual)	
46DVA-SNK14	14" Snorkel termination cap (required for rear vent without vertical rise)	
46DVA-SNK36	36" Snorkel termination cap (required for rear vent without vertical rise)	
1265WSK	Valor Wall Switch Kit - (optional accessory)	
GV60BRK	1-Hour Shut Down Handset (required in bedrooms in select jurisdictions)	
GV60NTK	Non-Thermostat Handset (a simplified remote for flame & pilot control only)

CASTING & CONCRETE

Designed using quality cast iron finishes and glass reinforced concrete (GRC), the Madrona Contemporary provides a grand presence in any living space.

MADRONA SERIES ENGINE - MODEL/FUEL

Model	Fuel	Max. Input BTU/hr	Min. Input BTU/hr	Fuel Bed Options	Fan Option	EnerGuide Rating**	Max. Output** (w/out fan) BTU/hr
MF28JLN	NG	28,000	6,500	Log	Yes	68.5%	20,620
MF28JLP	LPG	28,000	14,500	Log	Yes	69.5%	21,185

Certified to ANSI Z21.88a-2012/ CSA 2.33a-2012 Vented Gas Fireplace Heater American National Standard, CGA - 2.17-91 Gas Fired Appliances for use at High Altitudes. ** EnerGuide Ratings and Outputs have been determined without a fan/blower, using the CSA P4.1-09 test method

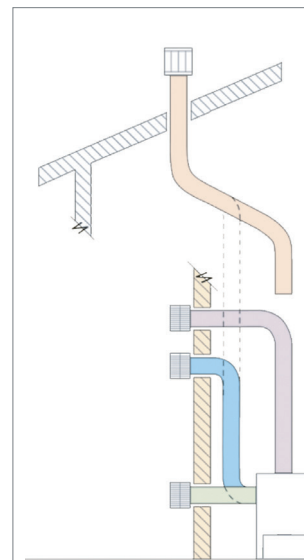

All product information is accurate at time of printing and is subject to change. Printed images may vary from actual product. Although every image displayed in Valor literature is quality controlled internally, we cannot guarantee that the color, size and shape of each image is displayed correctly. To guarantee you have selected the correct product for your home, visit your local Valor fireplace dealer. There you will find live burning units that perfectly match the fireplace you have in mind.

ABOUT VALOR FIREPLACE EFFICIENCY RATINGS

All Valor product literature is published using recognized Canadian and US government test methods for determining energy efficiency performance. This ensures our products will perform in your home as rated.

Beware of misleading "steady state" efficiency claims made by manufacturers using their own "in-house" test methods. For example - a large difference between an Energuide rating and a "steady state efficiency" may indicate misleading efficiency claims. For more information please visit www.valorfireplaces.com.

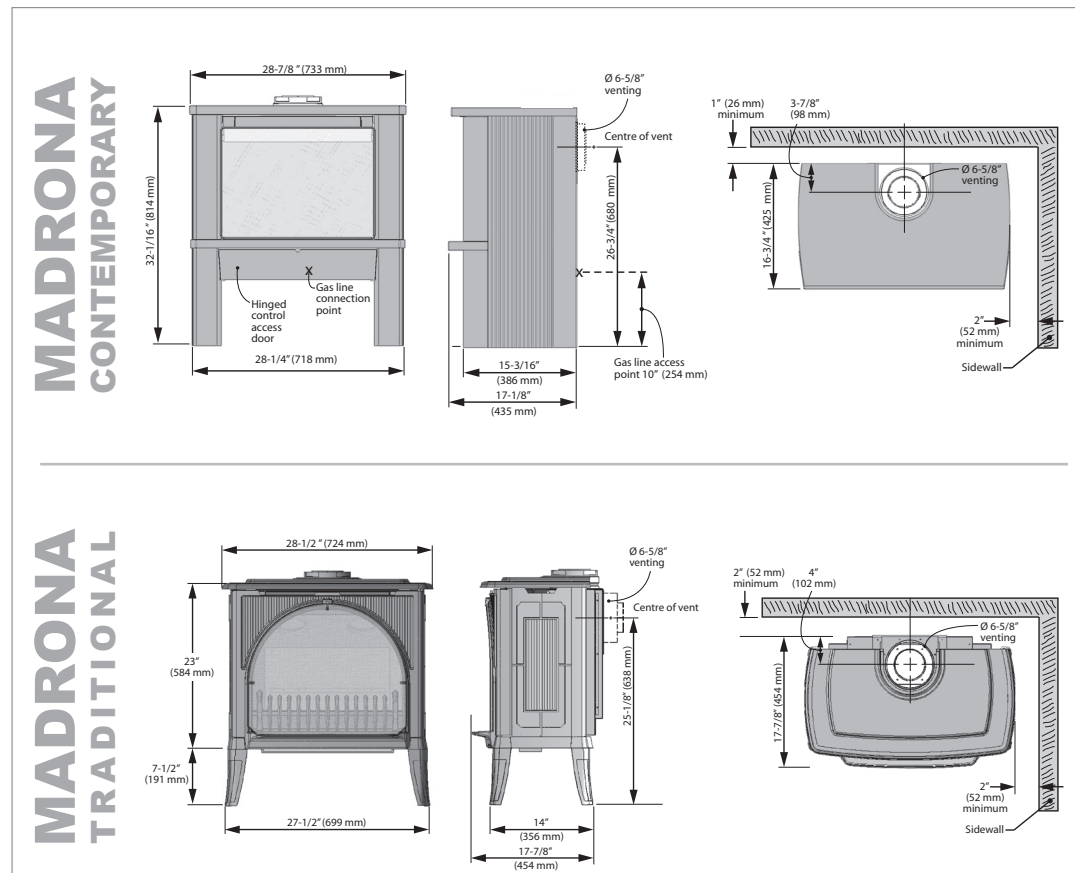

VENTING OPTIONS

TOP & REAR VENT OPTIONS

Both Traditional and Contemporary Madrona designs offer top and rear vent installation options. Please review complete manual before installation.

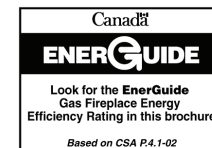

MADRONA SERIES PRODUCT DIMENSIONS

Standard on the Madrona Contemporary model, an easy-access panel makes fireplace operation and maintenance a breeze.

Both Traditional and Contemporary Madrona models come standard with a clip-on barrier screen.
